Re: Community Update: Accessibility Project at the Pool Complex

A quick update on the progress of the pool accessibility project: As many of you know, this project is part of our efforts to make the pool fully accessible to all residents. In accordance with our Fair Housing settlement, we are *unable to open* the community pool until it is accessible to everyone.

A key component of the upgrade—a custom-built elevator that will provide access to all pool levels—is still in production with the manufacturer. We have been informed that the elevator should be completed by mid-to-late July. Once delivered, installation is expected to take approximately one week, followed by required inspections by the Town of Greenburgh and Westchester County Health Department.

Unfortunately, this timeline means the project has taken longer than originally anticipated. We understand the delay is disappointing, and we truly appreciate your continued patience. We will keep you updated as the work progresses, including if or when we may be able to open the pool this season.

As always, please remember that we are all part of this community together. This project represents another key step toward making our neighborhood more inclusive and welcoming for everyone.
